

AGENDA

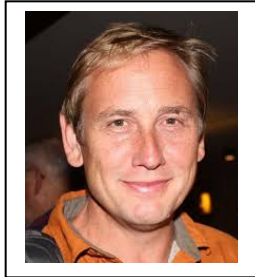

Maryland Invasive Species Council

National Agricultural Library
Abraham Lincoln Building
10301 Baltimore Ave
Beltsville, MD 20705

Thursday, November 15, 2018 ~ 9:30 AM - 12:00 PM

- Introductions
- Comments by Facilitator
- Review and Approval of July 19, 2018 meeting minutes
- Membership - pending, new requests, address/affiliation changes

Guest Speakers

**Pete Marra - *Cat Wars:*
*The Devastating Consequences of a Cuddly Killer***

Mounting scientific evidence confirms what many conservationists have suspected for some time—that in the United States alone, free-ranging cats are killing birds and other animals by the billions. Equally alarming are the little-known but potentially devastating public health consequences of rabies and parasitic *Toxoplasma gondii* passing from cats to humans at rising rates. Marra will discuss his book *Cat Wars: The Devastating Consequences of a Cuddly Killer*. He will present data on the threats non-native and invasive free-ranging cats pose to biodiversity and public health throughout the world and will also shed new light on the controversies surrounding the management of the explosion of cat populations. Marra will paint a revealing picture of a complex global problem—and propose solutions that foresee a time when wildlife and humans are no longer vulnerable to the impacts of free-ranging cats.

**Danielle Bays - *Community Cats Program Manager,*
*The Humane Society of the United States***

Danielle Jo Bays is the Community Cats Program Manager for the Humane Society of the United State (HSUS), Utilizing her skills in public policy, hands-on TNR, networking and resource development to expand The HSUS's community cat work nationwide. Prior to rejoining The HSUS, Daniewlle served as Program Manager for the community cats program at the Washington Humane Society in Washington, D.C. and continues to be a strong and passionate voice for community cats in her neighborhood and city.
